Certificate of Appreciation

Jess Sicard CW

The Futuro Phase 1 project brought on new challenges in many ways, and you rose to meet them with dedication and confidence.

The Futuro site is in better shape, now, than it has ever been, and you're a large part of that success. Thank you so much for your hard work, great designs, and positive attitude. I'm looking forward to Phase 2!

Certificate of Appreciation

Matt Gianforte CW

Your expertise, quick response, and positive attitude are all tremendously appreciated. You're in a tough role, and, a lot of the time, your efforts can go unseen, but know that we all view you as invaluable. Thank you so much for your help on the Futuro Phase 1 launch, and for all of the other many projects, large and small, that you see through to completion. I used to be in your position, so I know how tough it can be some times, but also how rewarding. Thank you for your hard work!

Certificate of Appreciation

JASON ERDAHL CW

Thank you so much for the excellent work with the Futuro theme updates. You didn't have as much time to do this as any of us would have liked, but you got it done, and the site looks fantastic!

JASON ERDAHL CW

Thanks Jason for your recent updates on the Scotch Brand Eloqua short form. You were able to put in place a creative solution for getting a long form field to fit in a short amount of space. Thanks for this and your many other recent CSS updates for Consumer Business iconic sites!

Certificate of Appreciation

JASON ERDAHL CW

Thanks Jason for all the work you've done recently on special projects for Post-it, Scotch, and other brands. We appreciate you learning how to deploy and troubleshoot the complex code developed by outside agencies.

Thanks also for completing the multi-week project to clean up the CSS in all pages of the Post-it.com site. Thanks again for all your efforts.

3M

Certificate of Appreciation

Erdahl, Jason

Thank you for all of the work you did to implement ShopVisible on the ESPE FUZE site. Your attention to detail and thoroughness was valuable on this project and in helping the Business go back to the agency to point out gaps that needed to be addressed by other parties involved.

This is feedback directly from the client:

"I want you both to know how much I appreciated your willingness to work on this oddball project. Your professionalism on the phone with ShopVisible and the level of technical expertise you brought to this project were noted by all of us here in 3M ESPE. Thank you again for taking this on and helping us out."

Great job Jason!

Certificate of Appreciation

Erdahl, Jason

Thank you Jason for your hard work on the CSS over ride work required for the Futuro Fuze site. Not only were you figuring how to incorporate CSS over rides for the first time in FUZE, you were also discovering a lot about customizing with responsive in mind. You provided CSS work for all the integration work, and have provided invaluable work when Design Patterns were updated unexpectedly! You are always a joy to work with, amiable, willing, and persistent in finding solutions, where none had gone before! THANK YOU!
